

# MANARAT INTERNAIONAL UNIVERSITY

Department of Computer Science and Engineering  
Object Oriented Programming (CSE-207)

Name : Md. Wasim Akram  
Student ID : 2118CSE50229  
Team Name : Md. Wasim Akram  
Project Title : Information & Notice website  
Category : Web-based  
GitHub Repo : <https://github.com/Wa316082/webProject-uv>

**Project Description:** It's a web-based site that contains some Authenticate Users who can share some information that only can be seen who are the Authenticate Users. And also every user can comment about the information or notice and put their own opinion. The user posted the Notice or information only can edit or delete the post. It can be used our university platform to share some information or notice for the student's and teacher's.

**Visions:** If it once got appreciation we can add some more features to make this site more user comfortable. Like notice category. Like if the notice only for the teachers then teachers can only see the notice. If the notice only for the students then students can only see the notice. For that two types of users can be sing in. One for teacher one for students. And some notices that everyone can see. And messaging options etc.

**Fundamentals:**

- i. Html & CSS
- ii. Python
- iii. Django
- iv. Others library and packages.

**Features:**

- Authentication system
- Create Notice or Information post
- Show Post
- Post details with comment options
- Edit and delete post.
